

# SIS A Validation Study

There will be 6 levels of support:

- 4 levels for different general support needs
- 1 level for high Medical support needs
- 1 level for high Behavior/Mental Health support needs

# SIS A Validation Study

- SIS-A validation study September 25th – 29<sup>th</sup>
  - Review 160 consumer records. 10 from each provider agency.
  - Make sure the SIS-A can identify the right level of support for most people.
  - Will look at the SIS A and consumer record to make sure the SIS A has the right level of support.
  - The records will be a mix of different needs. This means different home settings and different support needs.
  - Human Services Research Institute (HSRI) will lead the review teams

# SIS A Validation Study

- SIS-A validation study September 25th – 29<sup>th</sup>
  - State staff and DS service providers will be part of the reviews
  - DS providers will only look at records for people their agency serves
  - Can't include individuals or families due to privacy laws
  - This will help us move to the next step and draft a payment model
  - We will have an exceptions process
  - Grievance and Appeal rights will always be available
